Program	
Comprehensive Meta-Analysis Version 3 – Active Student	Professional – 6 Month Lease - \$95

- This special teaching option is only available **once per semester**. It is only open to **students**.
- Professors must submit a copy of the course syllabus and make arrangements prior to the start of class.
- To order this license, each student must complete this form and submit it by fax or email.
- The teaching licenses are intended for **students** participating in a class that requires the software. It is **not intended for lab/classroom computers** (please see academic pricing for this option).
- The above prices are valid for a **minimum class size of 5 students**. Only **one code** per license will be released.
- The above **pricing is reserved for students and does not include the Professor's license**. It is also not intended for graduate students independently working on their thesis (please see student pricing for this option).
- The above prices are **valid for the first six months**. Upon expiration of the lease, the student may renew the license at the applicable student/academic/corporate rate.
- Copies of PDF lessons and examples are available free of charge upon request.
- Please be aware that our software **will not run on MAC** unless you have a Windows emulator such as Parallels or Bootcamp.
- Refunds **will not be issued** once the order has been processed and the software has been unlocked.
